

MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Winchester, Ind.—"Four doctors told me that they could never make me well again, and I was eventually forced to give up my life."—MRS. MAY DEAL, Winchester, Ind.

Hundreds of such letters from girls and women have shown their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them. It has been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Girls who are troubled with painful irregular periods, backache, head-ache, dizziness, nervousness, fainting spells or indigestion, should take immediate action to ward off the serious consequences of neglect. Write to Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by its use.

If you are in need of confidential advice about your case, write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

He Missed It All Right

"I see they have lost the seven a.m. train of this line. Do you miss it?" asked one suburbanite of another. "I miss it, certainly, but not so often as I used to when it was on."

FILES CURED IN 6 TO 14 DAYS
Your druggist will refund money if it fails to cure any case of Itching, Blistering, Bleeding or Protruding Piles in 6 to 14 days. 50c.

"My largest item of expense is on account of advertising. 'Indeed! I was not aware that you were in business.' But my wife reads the ads in the newspapers."

Shiloh's Cure
Reliable stops coughs, cures colds, heals throat and lungs. 50c.

Johnson—So you're going to stay for the summer?

Woodson—Yes, I intended to enjoy myself thoroughly. But after I had myself clothes, yachting clothes, golfing clothes and riding clothes made I found I hadn't enough left to pay railway fare and hotel bills.

Itching Humors

Itching, burning, bleeding, scaly and crusted eczemas, tatters, rashes and other torturing and disfiguring humors that destroy sleep and make life a nightmare of physical and mental suffering speedily yield to

Cuticura Soap and Ointment

No other remedies for skin and scalp so speedy and economical. A single cake of Cuticura Soap and a box of Cuticura Ointment are enough to last a family for a year. Send to Foster Drug & Chem. Corp., Boston, U.S.A. or 52-page book, an authority on treatment of skin and scalp diseases.

DRUNKENNESS IN EARLY DAYS.

How Famous Men Loved Fermented Corn and Grape Juices.

Nearly all the great men of Greece and Rome were heavy drinkers. Alexander the Great, when he died, because there were no more words to conquer was recovering from a debauch of two weeks' duration. He drank so much that it caused internal tremors and this excess killed him at the early age of 32. It took him two days and two nights to get over a cold.

Julius Caesar liked wine almost as much as fighting. While drunk he gave Eutychus, his charioteer, a tip amounting to \$80,000, the greatest sum ever given to a slave.

Philip of Macedon was a drunkard. He always left the banqueting table staggering.

Menelaus was in the habit of sitting down at noon and drinking and sleeping until midnight, and usually had to be carried to bed from wine drinking.

Theobius was a drunkard. After becoming emperor of Rome he was intoxicated so often that his army nicknamed him Biberius, meaning "drinker."

Sardanapalus, last king of the Assyrians, would not only get drunk but would make up 100 or more of the female beauties of the empire as fast as he did. The royal sports was a great sight with women lying on the floor in various stages of intoxication.

The excesses of the Persians gradually affected Greece. The Romans imitated the Greeks, and carried over indulgence an extreme never equalled. Gluttony, drunkenness and orgies reigned, and huge fortunes were spent in single feasts. Of the many feasts given by Xerxes not one cost him less than \$100,000.

Many of the famous drunkards drank \$500,000 worth of wine at a single meal. At a luncheon given to Julius and Pompey by Lucilius \$100,000 worth of wine was consumed by the three.

Spooks That Spoil Sentry-Go.

Remembering that the British sentries were not allowed to have "doleful night" in all the world than any other person, it is small wonder that ghost stories told round guard fires on Christmas nights are uplifted.

"Sometimes their 'ghosts' prove to be an elusive, mischievous, foot-fouling spook, who, in native dress, in her masquerade as a winged-sheath, in the hope of diverting the attention of sentries whilst other robbers make raids, or sometimes the 'ghost' is a scared recruit, doomed to patrol at midnight a lonely spot where a murderer or such has just been committing some crime, or sometimes a ghost that has frightened many sentries out of their wits is only a harmless but playful cantankerous cat."

Spooks that excite, lack the weird, true ghostly flavor attaching to the experiences of the sentries at Hampton Court Palace. "Night after night a ghost used to be seen in one of the dimly lighted rooms appearing before the lonely sentry in the grounds, and succeeded in scaring the whole guard. But Mr. Ernest Law, the historian of England, has brought forward what is described as 'indisputable evidence' as to the existence of Queen Catherine's ghost in the 'Haunted Gallery.'

Jewels Back on Job.

The crown jewels, which for a month have been stored away in a secret place, have now returned to the Jewel House of the Tower, and, by the order of the Lord Chamberlain, were on view for the first time since the Civil War. The Jewel House has undergone numerous alterations for the even greater security than before of all the regal treasures. The King has named the famous Culmann diamond, "The Star of Africa," particularly appropriate honor to the Union of South Africa. The largest section of what was once known as the "Crown Jewels" is the "Star of Africa," which is fixed to the front of the imperial crown, and the famous Black Prince Ruby, has been placed in the middle of the Maltese Cross. The small diamond is to be seen fixed in the head of the sceptre. Both the "Stars of Africa" can be detached and used as a pendant to be worn by the Queen.

A New Sect.

London has been invaded by a troop of nihilists, who wear unlined cloaks and white hats reaching to their shoulders. All have been sent out from the Exeter, the British headquarters of the sect, which originated in India. Many believe of so many new "religions." The main tenets of the sect are embodied in a book published by a certain Mr. W. H. Morris, and addressed to the "Twelve Tribes of Israel scattered abroad." The members believe that exactly 144,000 people were born to the elect, and that these are also destined to be saved. All the elect have by law to allow hair and beard grow unchecked, to show that they are spiritual men, from the unregenerated community.

Board in Jail.

An unusual occurrence, which was peculiar to the Old Bailey prison in London was that when an accused person was sent to the bar to pay the fees of Newgate he was compelled to pay the fees of Newgate in back for his money. Many unfortunate prisoners died in Newgate through

More Deadly Than the Plague

The common cold is held responsible for many deaths of persons.

Colds kill more people than plagues. When not avoided they can often be hurried from the system by keeping the filtering and excretory organs active.

Many write us that nothing helps them so quickly get rid of a cold as Dr. Chase's Kidney and Liver Pills. This is a safe and effective remedy.

The poisonous matter, which collects in the system is quickly removed to cause trouble or give rise to other derangements.

If you are in the form of a cold then don't waste your time if you have a chance to attack the lungs or settle on the kidneys. Get rid of it quickly with Dr. Chase's Kidney and Liver Pills.

Mr. J. H. Gibbard, Mission City, B.C., writes—"We have used Dr. Chase's Kidney and Liver Pills for many years and think they are the best thing as a family medicine. My wife has been sick for nearly two years with torpid liver and kidney trouble. She has been taking Dr. Chase's Kidney and Liver Pills and she had to go to bed for two or three weeks at a time, and she suffered dreadfully."

The use of Dr. Chase's Kidney and Liver Pills, she said, has relieved her of pain and she is improving every since. She is never sick a day now, and is better than ever before. I have been greatly benefited myself by this treatment for kidney trouble."

Dr. W. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates and Co., Toronto. To protect you against colds, buy a box of the famous Rector Book author, M.D., the famous Liniment Cure Book, are on every box.

When Heligobulus ascended the throne he had a man whose special task was to record the orgies. Forty courses a day were served, and each course cost him more than \$10,000. He gave fortunes to inventors of new drinks.

Apicius spent \$300,000 on rare wines and dishes. He went over his books each day and found that he had but \$300,000 left. Rather than live on such a pitance he stepped out into the sky-rocket of debauch.

Many of the famous drunkards drank \$500,000 worth of wine at a single meal. At a luncheon given to Julius and Pompey by Lucilius \$100,000 worth of wine was consumed by the three.

A man seldom looks as mad as he sounds when he uses unprintable words.

A dollar fairly got is worth a thousand that are not.

STARTS THE NEW YEAR A NEW MAN

DODD'S KIDNEY PILLS DID FOR HIM

They Fixed Up His Kidneys, made his blood pure, and made him feel young all over.

Franklin Centre, Que. (Special)—The old year starts the New Year right, to get the health right, and Mr. William Gamble, a well known farmer living near here, is telling his neighbors how he got his health right.

"I am a farmer sixty-seven years of age," Mr. Gamble says, "and I suffered from a sore throat and stoppage of water off and on for ten years. I used several boxes of Dodd's Kidney Pills, and they made a new man of me. Dodd's Kidney Pills are the new man of you because they make the kidneys strong and healthy. They do their work of straining all the impurities out of the blood. Pure blood means new life. It means strength and gives added strength to all the organs."

Dodd's Kidney Pill's cure all forms of Kidney disease, from Bright's Disease, and there are all manner of kidney diseases, appearing before the lonely sentry in the grounds, and succeeded in scaring the whole guard. But Mr. Ernest Law, the historian of England, has brought forward what is described as "indisputable evidence" as to the existence of Queen Catherine's ghost in the "Haunted Gallery."

Lodged Dice

"That horse of yours looks poor," said a stranger as he slowly mounted a jaunting-car in dear, dirty Dublin.

"Arrah yer honor, not poor, but unlucky he is."

"What's that?"

"It's like this, yer honor. Ev'y mornin' I toss whether he has a feed o' corn or I have a glass of whisky. If he does, 'tis he has lost for five mornin's runnin'!"

Would Let Him Off

" Didn't you promise me never to do it?"

"Yes, sir."

"And I said I'd whip you if you did it again."

"Yer temper, but as I didn't keep my promise I won't hold you to yours."

"Boston Transcript."

"There's one thing you can lose that everybody's willing to return."

"What's that?"

"Yer temper."

"Shiloh's Cure

Quickly stops coughs, cures colds, heals throat and lungs. 50c.

His Point of View

The poet paid his friend, the politician, a visit to the top of New York's tall building to see him. The man of politics seemed stunned for a moment by the beauty of the flying Rayo Lamp.

"What's it for?" he asked. "Gee, what a lot of assembly districts you can see from here!"

"It's for taunting a man for not fighting."

Pat Down Double.

Abbe Lamire has introduced in the Paris chamber a bill to make duelling a punishable offence. The penalty varies from imprisonment for six days for a minor offense to death by hanging for a major offense.

The severest punishment is for the dueller who kills his man:

"For taunting a man for not fighting."

Minard's Liniment Cure Diphtheria,

"You say she plays the violin?"

"Yes."

"Does he play it well?"

"He must do so, because he's on speaking terms with all his neighbors."

Birmingham Age-Herald.

Minard's Liniment Co., Limited.

Gentlemen.—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of Laryngitis. I have frequently used it to very effect in cases of Inflammation.

Yours, W. A. HUTCHINSON.

It is the unexpected that happens," remarked the moralizer.

"What's that?" asked the moralizer. "I once knew it to rain after the weather barometer had predicted it."

Time tries all things and as Bickle's Anti-Sore Throat Syrup has stood the test of years it now ranks as a leading article in the trade. It is a safe, reliable and effective remedy for the relief of irritation and restore the affected organs to healthy conditions.

It is very safe and is recommended by the Royal Canadian Mounted Police.

THE VINDICATOR, FRANK, ALBERTA.

Home Course In Health Culture

X.—"Nerves" In the Home

By EUGENE L. FISK, M. D.
Copyright, 1916, by American Press
Association.

NERVES" are quite as pernicious an influence in the household as microbes. It is unfortunate that, unlike microbes, "nerves" cannot be boiled, fumigated or killed by antiseptics. It is true that fresh air, sunlight, exercise and simple diet are natural enemies to all forms of microbes; but these remedies are not available, and the enforcement of a discipline which it is difficult to attain in a "nervous" household, and so it is regrettable that we cannot treat these pesky nerves as we do diphtheria germs and drive them from the home atmosphere with firewood gas.

Physical Nervous Diseases.

There is reason to believe that under the strain of modern conditions nervous disease is claiming an increasing number of victims. This belief derives little support from census returns or vital statistics in the large cities, where the average life and their face value without close analysis. The bald figures show a marked decline in the death rate from nervous disease during recent years. But on digging beneath the surface we find that much of the decrease is due to the fact that nervous disease is often disguised by "convolusions," a cause of death reported under "nervous diseases." On going still further and ascertaining what changes have occurred in the mortality from degenerative diseases of the heart, arteries and kidneys, muscle, largely caused by nervous strain and abuse of the nervous system, we find that during the past thirty years the mortality from these diseases in the United States registration area has increased 105 per cent.

The question naturally arises, Is the excessive mortality, failing chiefly among the middle aged and elderly, a necessary accompaniment of our civ-

BEING LEARNED THAT YOU POSSESS A
NEWFOUND SYSTEM OF AMAZING PRACTICAL
"SMILE AND FORGET IT."

ilization? The answer is emphatically, No! Neglect and temporary failure of adjustment to conditions which have changed with marvelous rapidity in the past half century are responsible for the majority of life. When the batteries of preventive medicine are fully trained upon this degenerative class of maladies, as they have been trained upon tuberculosis, typhoid and other germ diseases, a marked and decided change in the middle aged and elderly will take place quite as remarkable as that already attained among the younger members of the community.

Cause of Nervous Disease.

The conditions that give rise to nervous disease are numerous. The monotony of domestic routine, unrelieved by that daily contact with the outside world which often saves a man from hypochondriasis, is a fertile source of future anxiety and worry. It is my belief that every housewife needs a vacation occasionally.

There is reason to believe that latent grief, worry or remorse relating to matters really long since settled or forgotten may bring about functional nerve trouble. It is desirable to get such things "out of the system." Talk the matter over with your physician or your clergyman and ventilate the chamber of your mind until it has been confused. The nursing of a "grouch" is of a wild, peevish, humorously adjusted nervous system.

Oversimulation is the result of the demands and opportunities arising out of our rapidly developing and complex civilization, the strenuous life called for a constant readjustment of the hands to the kaleidoscopic changes which are going on around us. We sometimes forget that the incidents and experiences that formerly would have required a lifetime of 100 years may now be crowded into a tenth of that period.

Effect of Prolonged Strain.

If the finest quality of bow is kept continuously bent it will lose its resiliency.

Likewise the most finely poised nervous system if subjected to continuous and unrelenting strain will acquire in time a weariness which will irritate the spinal cord and patient treatment to remove. The business or professional man who preses steadily toward some mark, grading even the time given to meals and refusing to take a rest, often destroys his own ends. It is a weary and nerve-wracking task.

Understimulation affects those who are outside of the main stream, who have drifted into the backwaters, whose lives are so narrow that monotony induces a spiritual starvation, and finally results in a physical exhaustion of the nerve system.

First Step in Prevention.

Hasten to learn that you possess a nervous system of amazing complexity, "smile and forget it." Only the strongest brain can indulge in critical self analysis, especially of a nervous system not injured by overwork.

causing morbidly self conscious and exaggerating nervous manifestations which are often of trifling importance.

With the latent knowledge that you have such a system and a very delicate knowledge of the things that will affect it, you can make better adjustments accordingly and with confidence in your ability to defy disease and the odds are all in your favor. Nerve strain, neurasthenia and a host of other troubles will pass by, leaving you unscathed.

It is the undeniably responsible for many cases of nervous failure and the maladies that follow in its wake. If individual whose family history shows a tendency to nervous or degenerative disease would refrain from the face of this globe he would be transformed as if by magic within a generation.

Value of Early Training.

For best results we must begin early. Regularity, discipline and the upbuilding of self control are the watchwords in dealing not only with the nervous child, but with all children, the more important the earlier and the enforcement of a discipline which it is difficult to attain in a "nervous" household, and so it is regrettable that we cannot treat these pesky nerves as we do diphtheria germs and drive them from the home atmosphere with firewood gas.

The habit of early training should be avoided and the child encouraged to develop in a normal, sleepy condition instead of in a state of high tension from romping or the reading of exciting tales.

Dangers of School Strain.

A clear brain and a sound nervous system are far more valuable possessions than a highly cultivated mind and a shattered nervous system.

The nervous system of the growing child is an extremely delicate and unpredictable mechanism. If the demands upon it are too heavy the evil influence may reach far into adult life.

This is especially true as affecting girls between the ages of twelve and seventeen. The school work should be carefully considered at this period, and if possible reduced to a minimum.

Editorial Brieflets

A very appropriate sign to
hang up on the street corners
just now would be "Let him
that thinketh he standeth take
heed lest he fall."

We hope soon to see compulsory
education strictly enforced
in these towns along The Pass,
and we also hope that those
youngsters who play truant will
be taken into account.

The school teachers are the
guiding stars of the Dominion.
They take the little bantling
fresh from the home nest, full
of his pouts, his pettiness and his
passions, ungovernable in many
cases, a rampaint, riotous little
wretch whose own mother often
admits she sends him to school
purposely to get rid of him. The
teacher takes a whole carload of
these little anarchists, half of
whom singly and alone cannot
be handled by their own mothers,
and he or she puts him in the
way of becoming a useful
citizen.

There are events occurring in
every community, which, if reported
in a local paper, would
create a commotion little
dreamed of. What to report
and what not to report often
plexes the editor. He is often
accused of cowardice and
favoritism, when all the time he
is looking toward the good
reputation of the town where
his lot is cast. The local editor
from necessity almost constantly
finds himself between two
fires, and which ever way he
turns he is sure to be unjustly
treated. This is one of the
pleasures of the newspaper
business.

He Takes a Cat Fit

A writer of human affairs has
said that everything, no matter how
trivial, in a man's life has a bearing
upon his future and place in his
history. The truth of that saying
has been very sharply verified by a
mixed tribe about us by our
splendid friend, the secretary of the
Coleman hockey club, in last week's
issue of the Coleman Miner. He con-
demns us for doing what many honorable
and respectable people are
doing every day. It was the price
agreed upon and it was promptly
paid. Nobody but that persistent
shallow soul and shivelled-bide
Coleman hockey club secretary
would even pretend to question the
rightfulness of our action. What
other startling(?) obscure and
forgotten incident has our excited and
phenomenal friend to spring upon his
suffering readers for the purpose of
impaling our reputation? He volunteers
a little information in saying
that ours is a "very valuable paper."
Our tardy friend is a little behind
with his statement. Our ever in-
creasing list of subscribers know it
and known it ever since this
panacea started to shed its radiance
into their hungry souls.

No one knows how much good
he may do by his own quiet and
unobtruding good example.

Happenings in and

Around Blair-

more

Ma. F. G. Graham was down
from Coleman on Tuesday.

Kali Bros. are putting on a sale
today, lasting until Friday of next
week.

Ike Walton's descendants have
already repaired to the riverside,
but bites are few and far between.

A fine watchdog, belonging to Mr.
Jas. Burrow, was killed by a
freight train near Lyon's bridge
on Sunday.

The Ladies' Aid of the Presby-
terian church will meet on Tuesday
afternoon, Feb. 21st, at the home
of Mrs. Ernest Hind.

Fred Hanson was up before Jus-
tice Pinkney on Friday last charged
with being a vagrant and was fined
\$10 and costs.

Fraser Sinclair moved their
office on Tuesday from Eighth
Avenue to Victoria Street near the
Enterprise building.

Miss Louise Sunstrum has re-
signed her position with Kali
Bros. and has accepted a position in
H. E. Weber's store.

Miss S. M. Bonner goes on a visit
to Lundbreck this week, where she
will spend some time with friends
and watch the spring herd a-shoot.

W. A. Beebe, T. Frayer, J. A.
MacDonald and Michel Ross were
visitors to Macleod on Monday.
They returned to town on Tues-
day.

Mesdames Gebo, Pegg and several
other ladies of the Roman Catholic
Church served coffee at the rink on
Wednesday when \$25 was raised for
their church.

Services will be conducted at the
Presbyterian church both morning
and evening on Sunday, Feb. 19th.
At the close of the evening service an
important business meeting will be
held.

The men and councillors met
on Monday evening, but as a
public meeting was being held to
discuss incorporation, the council
meeting adjourned without doing
any business to meet again on
Thursday night.

The annual business meeting of
the Central Baptist Church was held
Wednesday night, when reports of
the past year's work were submitted
and officers elected for the coming
term. A programme consisting of
addresses, recitations and music was
rendered, after which refreshments
were served by the ladies.

Count of Ginestra gave an ad-
dress to two hundred of his coun-
trymen in the Union hall on
Saturday evening last. The Count's
story concerning his travels was
of intense interest to his hearers
who frequently applauded him.
A short talk was also given in
English after which dancing was
indulged in and was kept up until
Sunday was ushered in, when all
returned home after spending a
very pleasant evening.

Coleman Notes

Mayor Cameron was at Mac-
leod on Tuesday.

O. E. S. Whiteside attended the
hockey game at Frank on Friday
last.

Percy Willmott was in Frank
on Friday last and encouraged the
hockey players on to victory.

Several of our Italian citizens
went to Blairmore on Saturday to
hear Count of Ginestra speak in
the Union hall.

F. Cardino, who is secretary of the
Coleman hockey club and who jour-
neled to Frank on Friday evening
last, did not succeed in getting the
Frank secretary to permit only one
representative of the press to be
present on a pass. He returned home
empty-handed.

No one knows how much good
he may do by his own quiet and
unobtruding good example.

The "2" Big Stores

USEFUL THINGS

for every household, office or place
of business are contained in our fine
assortment of First Quality Hard-
ware. The want of a hammer, saw,
file or wrench has delayed many a
much needed improvement. The
possession of a complete set of tools
acts as an incentive to make bene-
ficial alterations about the house.
We sell everything in the hardware
line, and our prices are very moder-
ate.

Watch our "ad" and window each week. It will pay you.

"Eat and Be Merry!"

Stop starving yourself—stop suffering the pangs of indigestion—stop worrying about what you dare and dare not eat.
Eat hearty meals of wholesome food, take

NA-DRU-CO DYSPEPSIA TABLETS

and you'll feel like a new person. Sour stomach—heartburn—occasional indigestion—chronic dyspepsia—all yield quickly to NA-DRU-CO Dyspepsia Tablets. The properly digested food restores your strength, your stomach regains its tone, and soon requires no further aid.

50c. a box. If your druggist has not stocked them yet send 50c. and we will mail them.

NATIONAL DRUG AND CHEMICAL CO. OF CANADA LIMITED, MONTREAL.

His Ancestry

King Edward was very fond of his short strands and liked talking to him. When the little boy was eleven his grandfather asked him what he was studying in his history lesson, and was told, "Oh, all about King Edward." "Who was King Edward?" "Who was Perkin Warbeck?" and the lad replied, "He pretended that he was the son of a king. But he wasn't the son of the respectable parents!"—Til-Bits.

FOUND QUICK CURE . . . AFTER EIGHT YEARS

DODD'S KIDNEY PILLS TRIUMPH WHERE BELTS AND PLASTERS FAIL

Moses Sherwood, a long sufferer from Backache, found permanent relief in a box of the great Canadian Kidney Remedy, Dodd's Kidney Pills.

Poodie, King's Co., N. B. (Specified)—After suffering for eight years, while at the time the remedy was right at hand, Mr. Moses Sherwood, a well known farmer living near here, tried Dodd's Kidney Pills and is now as well as ever he was in his life. He is similar to that of thousands of other natives of New Brunswick. "About eight years ago I hurt my back from lifting stones and stones and plasters and plaster were a wide belt, but in two years my trouble had developed into Kidney Disease."

"My back pills so sore I could not lift anything when reading a Dodd's Almanac led me to try Dodd's Kidney Pills. Before the first box was finished my backache was gone. I have never been troubled with it since."

Belts and plasters may give temporary relief in cases of Backache, or Rheumatism, but the only way to cure them is to go to the root of the trouble. Cure the Kidneys and the Backache or Rheumatism will disappear. Dodd's Kidney Pills never fail to cure the Kidneys.

Marvelous

"We live in an age of marvels." It is indeed wonderful how so many marvels escape being struck by automobiles!—Buffalo Express.

Minard's Liniment Cures Diphtheria

Carpets should be beaten on the rough side first, and then more gently on the right. Never put a carpet down on a damp floor, for this often results in the carpet becoming mildewed.

Shiloh's Cure
The most remarkable medicine ever made
for the cure of rheumatism, neuralgia,
sciatica and rheumatism. 25 cents.

She "wishes you know we are all quite desirous in love with the new curse!"

He—"Ah, it was just the dread of that sort of thing in my own case that prevented me going in for the church!"—London Opinion.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

PERFECTION SMOKELESS OIL HEATER
Absolutely smokeless and odorless!

quickly gives heat, and with one filling of the fuel burns steadily for nine hours, without smoke or smell. Its automatic-locking flame spreader which prevents the fire from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a damper top and a cool handle. Indicator always shows the amount of oil in the fuel. The filler-cap does not need to be removed to clean the tube, and cannot get lost like a cork in a bottle, and is attached to the tube so firmly, and cannot get lost.

The burner body and gallows cannot become wedged, because of a new device in construction and consequently, it can always be easily uncrossed in an instant for rewicking. The Perfection is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Desires Everywhere,
to set at yours, write for descriptive circular
to the nearest agency of
The Imperial Oil Company,
Limited.

THE MOTHER OF FIFTY.

Preud Beast of Widow Van Wyk of the Transvaal.

In the district of Bloemfontein, the widow Van Wyk, whose history, matrimonially and otherwise, is not to put too fine a point upon it—so-walking out of the Bush—on October 1, 1883, Mrs. van Wyk (nee Thelma Marie Pretorius) began what was to prove an eventful matrimonial career at the age of twenty-one, when she married Petrus Jacobus Lubbe.

At the end of two years she became a widow with one child. After being a widow ten months, (says the Volksblad) she married Nicolia Maria Pruisier, a widower with four children. After living with him for a year and five months he also died, leaving her a widow.

After five months she married, for the third time, David Stephanus Pieterse, a widower with seven children. She had now lived eleven years and had never children when he also died. After five years' widowhood she married, for the fourth time, Daniel Lodewyk Cronje, a widower with six children, and with six children. With him she also lived eleven years and had four children, when he, too, died. Five years later she married, for the fifth time, Hendrikus Joubert.

With him she also lived eleven years and had ten children, when he also died. After five years' widowhood she married, for the sixth time, Coenraad Hendrik van Wyk, a widower with five children, Dr. W. A. van Wyk, a widow with five children, and with her she had four children.

After having lived together for eleven years he also died. She had thus fifty children who call her mother, and about 270 grandchildren. She is still alive at the age of seventy-eight years.

When Finnegan Died

Two Irishmen were in a city bank recently, waiting their turn at the cashier's window.

"This reminds me of Finnegan," remarked one.

"What Finnegan?" remarked the other.

"Tis a story that Finnegan died,

and when he greeted St. Peter,

"Here comes a customer," said Finnegan,

"I'm needing cash. Lend me a minute."

"Surly," said St. Peter. "Just wait a minute."

A Pill That Lightens Life.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate, he cannot think, he asks for medical vexation attend him. To such a man Parmelee's Vegetable Pills offer relief. A course of treatment, according to directions, converts him to their great excellency. They are confidently recommended because they will do all that is claimed for them.

"We need brains in this business, young man."

"You needn't tell me that, sir. Your business shows it!"—Baltimore American.

Minard's Liniment Co., Limited, Gentlemen—I have used Minard's LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent Physician of Montreal, who called it the "great Nova Scotia liniment." It does the doctor's work, is particularly good in cases of Rheumatism and Sprains.

G. G. DUSTAN,
Chartered Accountant.
Halifax, N.S. Sept. 21, 1905.

After the usual cleaning of white gloves with water, rub the gloves on and rub the hands in cornmeal. This will remove the odor and at the same time give the fresh, new look which cleaned gloves seldom have.

A Powerful Medicine.—The healing properties in six essential oils are contained in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Those who have tested it in its power in allaying pain and many thousands more can certify that they owe their health to it. Its wonderful power is not expressed by its cheapness.

Caller—"That's one question I should like to have answered. When those bright flashes across the infected spot, is it a muscular disease causing the material substance of the cerebral mass, or does it operate merely in the realm of the spiritual? Is there any scientific true subject to detection or classification in the domain of substantiality?"

NEARLY DIED OF STONE IN THE BLADDER

GIN PILLS SAVED HIM.

513 James St., Hamilton, Ont. "Five years ago I was taken down with what the doctors called Inflammation of The Bladder—intense pains in the kidneys, and frequently in cramping, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the room. My wife sent me to Dr. GIN PILLS and sent for a box. From the very first I felt that GIN PILLS were doing me good. The pain was less frequent, and the attacks were less frequent.

In six weeks, the Stone in the Bladder came away. When I recall the days of pain, I am thankful that I was healthy and able to work. I cannot express myself strongly enough when I speak of what GIN PILLS have done for me."

GIN PILLS are sold at 50¢ a box for \$2.50. Sent on receipt of price if your dealer does not handle them. Sample box free if you write to me.

GIN PILLS do not give full satisfaction. National Drug and Chemical Co., Dept. N. U., Toronto.

The best way to clean white furs is to scrub them well with a mixture of coarse paraffin, flour and salt that has been heated over a fire, and then browned to brown the fur.

After having dried, rub the fur for a day or two, and then shake it out.

The mixture remains in the fur for a day or two, and then shake it out.

Two Things

Life is morally fresh and bubble;

Two things stand like stone—

Kindness is another's trouble,

Courage is your own. —Unknown.

Minard's Liniment Cure Diphtheria,

A printer in making the forms in a hurry got a marriage notice and groceries mixed up, so that I read as follows: "John Brown and John Green were allowed in the flour by the quarter or barrel. Mr. Brown is a brown codfish at 8d per lb., while Mr. Green is a green codfish at 10d per lb., his feet will be sold cheaper than at any shop in town."

Sophocles is Brücke's Anti-Cough Syrup as a specific in the treatment of colds and coughs or ailments of the throat, due to exposure to draughts, or sudden changes of temperature, the druggists and all dealers in patent medicines and tonics are to be found on hand to meet the demand.

Every consideration is shown to those privileged to serve the Queen, and before signifying her pleasure, and before signing her pleasure, it is necessary for further consideration it is held over for a day, when a decision is given and almost invariably adopted.

She has never been known to lay aside a moment on the ground that to express an opinion when it is considered difficult. But should any letter require further consideration it is held over for a day, when a decision is given and almost invariably adopted.

Every consideration is shown to those privileged to serve the Queen, and before signifying her pleasure, and before signing her pleasure, it is necessary for further consideration it is held over for a day, when a decision is given and almost invariably adopted.

Busby though the Queen is—and one would hardly expect her to have seen her unoccupied—she is intimately acquainted with and takes part in all that relates to the management of the household. Her personal knowledge of the Queen's householders will often inquire whether they may not have some other engagement the breaking of which would be inconvenient to the Queen.

Busby though the Queen is—and one would hardly expect her to have seen her unoccupied—she is intimately acquainted with and takes part in all that relates to the management of the household. Shingles & Lath****Blairmore****Alberta****Grand Carnival**

A grand carnival was given in Blairmore on Thursday evening last by Kall Bros. managers of the rink. The rink was dotted with fancy dressed folk and their antics on the ice were very amusing to the 150 spectators present. The ice was in excellent condition and the managers had everything in good shape for the benefit of the skaters as well as the spectators. Those who wore costumes were as follows: Mrs. James Burrows, Shamrock; Miss Gladys Roy, Gipsey; Miss E. J. Kidd, sunflower; Miss P. Frayer, Spanish dancer; Miss C. Sunstrum, post card girl; Miss Lucy Howe, Italian; Miss J. MacNeil, red, white and blue; Miss S. Pollakowski, Union Jack; Miss Effie Beard, cow girl; H. Hargreaves and James Hargreaves, Yankee; J. Burrows, comic; E. Hargreaves, French; J. Kidd, Liberty; S. Pincher, happy Holligan; Ray Beard and Garfield Gamble, clown; M. Osborne, Diana; A. Miller, butcher.

The first prize was awarded to Mrs. James Burrows and Miss C. Sunstrum received the 2nd prize for fancy dress. The first prize for comic was given to Ray Beard and the 2nd prize went to Danny Lewis. After the carnival was over, a large number indulged in skating and enjoyed themselves until late in the night. The rink management deserve praise for the way they attended to the comfort and pleasure of those present.

Do you know that group can be prevented? Give Chamberlain's Cough Remedy as soon as the child becomes hoarse or even after the croupy cough appears and it will even prevent the attack. It is also a certain cure for croup and has never been known to fail. Sold by dealers everywhere.

Wesley College, of Winnipeg, and Brandon College, of Brandon are asking the Manitoba government for legislation conferring upon these colleges the right to grant degrees. They have a strong opposition.

NEW FURNITURE.

Two Ingenious and Useful Inventions For the Home.

A USEFUL DRESSING TABLE.

The Chafing Dish Cabinet is the Soul of Hospitality—A Bonn to People Living in Small Apartments and in Boarding Houses.

A folding dressing table and a chafing dish cabinet are the latest ingenious pieces of furniture made for the dwellers of small houses and apartments and where every clever space saving device that is attractive to look upon and yet adds to the comfort of living is welcomed with open arms. The last word in compactness of arrangement and simplicity of design is attained in these last examples of the artesian genius.

The dressing table is in a reproduction from an antique ad present day needs with present day mechanism concealed in its polished mahogany top, by means of which it is converted automatically from a plain lit-

FOLDING DRESSING TABLE.

the table that could stand unquestioned in the parlor or living room—or any place in the flat for that matter—into the most convenient and spacious dressing table. The top is divided into two parts. By lifting the lower section their length being longer, easier passes from below like an elevator, bringing into view a well selected toilet outfit mounted in silver, each piece fitting perfectly into its own little compartment—comb, brush, hand mirror, powder and salve boxes, perfume bottle, perfume bottle, middle, silver flat iron, etc., a good set for the lady on her face, is a good sized mirror fitted with hinges and uprights that is easily lifted in place after the table is open and folded just when it is to be closed. Nothing could be more ingenious and useful and serve two purposes so skilfully.

Thus the moujik ask for a wife,

THE RUSSIAN PEASANT.

Stupid and Poor, a Good Fellow Who Merely Exists.

The Russian peasant does not live; he merely exists. "Nichevo" ("it is nothing"), he says when anything happens to him. Nothing matters nothing, and nothing interests him. His panacea for all evils. And this is the Russian moujik is really a fine fellow. Ordinarily, H. P. Kenedy tells us in his book, "The Russian Peasant," he is a splendid, well built man, large headed, with a broad face. He is equally unfeeling for 20 doses of frost or twenty glasses of vodka. He is clothed in unclean sheepskins and carries in winter more clothes than the average Englishman could stand up in.

He is stupid, however, and his dream of happiness is to gorge, to sleep as much as possible through the winter and dance and sing in the summer. But the stranger's first impression to the moujik is that he smells—not because he has not washed himself. It is a sense of fact, at every village there are public bathtubs,

CURED OF LAME BACK WHEN 24.
Mr. Samuel Martin, of Strathroy, Ont., passed twenty years of his life in misery, suffering tortures from lame back. He tried nearly all advertised cures and household receipts but received no benefit from any of them.

Some months ago, seeing Gin Pill advertised, Mr. Martin sent for a box. The relief which Mr. Martin experienced after he had taken one box was so great that he knew he had found a remedy at last. He used two more boxes and now is completely cured.

Send for a box if you write National Drug and Chemical Co., (Dept. N.U.), Toronto, Ont.

Saved the Kaiser's Life.

It is not generally known that Gen. Sir Archibald Hunter, whose marriage recently aroused so much interest, was the means of saving the German Emperor from an accident which might have been attended with fatal results when His Majesty was paying a visit to Lord Roberts' camp a few weeks ago. At that time Gen. Hunter was in command of the troops in Scotland, and was present in that locality on the station platform to witness the arrival of Gen. Roberts' carriage was waiting, and the Emperor had just taken his seat when one of the horses commenced to bolt. Another horse, another instant the pair would have bolted. Like a flash, however, Gen. Hunter reached the animal and dealt it a smashing blow on the nose that caused it to drop to the ground. The horses were soon secured, and Hunter received the hearty thanks of the Kaiser for the smart way he grappled with the situation.

She Was Too Enthusiastic.

To those young women who have a holy calling. To see in the young mind the seeds of future knowledge and watch them as they grow and develop is a pleasure greater than I can tell. Your work, my work. My thoughts are only of you.

"I am very sorry," interrupted the young man to whom she was talking, "that you are so devoted to your studies. Miss Clara. I had hoped that some day I might have asked you in fact, I called to-night—but I hardly dare go on, in the light of what you say."

"You may go on, Mr. Smith," said the young lady softly. "I am a little too enthusiastic at times perhaps."

John Wesley's Wife.

John Wesley married a widow, Mrs. Vizet, who gave birth to him of three boys, John, Charles and Francis. He had no attention and from complaint she went on to jealousy, thence to fury. He rebuked her sternly: "Do not be angry, come here to me, weep, mourn or pray for me. Be content to be a private, insignificant person. Of what importance is your character to mankind? Do not let me be a burden to you. I have never lived so long as I have done, all that loss would fit him to be the cause of God?" She left him, taking with her a large sum of his private papers and dismissed the maid by writing in her journal: "Neil did not forsake her. I did not dismiss her. I shall not call her back."

Bismarck Loved the English.

Bismarck said a Russian only had sense to steal a lady's living, a Dutchman to get it, and a German to spend it, and Bismarck rarely stole less than a life's keeping. Bismarck said if there was one absolute, undeviating, uncompromising rule in the world, it was that a man's character was the key to his success. He was always all flowered over and spiritualized and hidden by gardens of hypocrisy.

The Russian Flag.

Peter the Great, it is said, borrowed the idea of the Russian flag from the Dutch, among whom he learned shipbuilding. He simply turned the Dutch tricolor, red, white and blue, upside down to make a Russian flag.

Ferguson and the Rabbits.

Robert Ferguson's poem was first matriculated at St. Andrews' University in the session of 1764-5. It was the custom at this time for each bursar to take his turn in invoking "blessing" at the meals. The college table having been surfeited with an unbroken diet of oysters, eaten in various forms of cockery, Ferguson, on being called to say grace, repeated what are now celebrated lines:

Rabbits young and for rabbits old,
For rabbits hot and for rabbits cold,
For rabbits tame and for rabbits tough
Our thanks we render, for we had enough!

It may be added Ferguson was not sent down, but the rabbits were "ruseated."

The Quipus.

The quipus, upon which the ancient Incas kept their records and accounts composed of thin cords, with smaller cords tied to it at certain distances. Upon these smaller cords the knots were tied by means of which the reckoning was kept. The length of the main rope varied from a foot to six feet. The cords were of various colors, each color having a meaning—as red for soldiers, yellow for gold, white for silver, green for corn, and so on. The reckoning seems to have been largely regulated by the distances of the knots from the main cord and the sequence of the branches.

New American.

Scorched Linen.

When linen has been badly scorched it will become consistency in half a pint of vinegar two ounces of fuller's earth and the juice of two onions. Spread this mixture over the damaged part and let it dry. If the threads are not actually burnt through the scorched place will appear after washing as white and perfect as the rest of the linens.

Same Effect.

"Cry!" said his mother as they sat down to the breakfast table, "did you wash your face this morning?" "Well, momma," said he slowly, "I did not think it worth my mind for an excuse, "but," he added reassuringly, "I cried a little before I came down stairs!"—Delineator.

BIG GAME IN B.C.

The Provincial Government is Increasing the Reserves.

Chief Game Warden Bryan Williams, of British Columbia, who has just returned from a short tour through B.C., is authority for the statement that the moose hunt has been an exceptionally good one for game of all varieties, and that instead of showing signs of exhaustion, the animals are increasing, and are really on the increase. And this despite the fact that all the many distinguished hunters who visited the country during the past season have been successful in their hunting with the fine trophies secured. There were many of such hunters in the field, and Mr. Bryan Williams, on account of eleven days in Lillooet, he counted no fewer than 160 head of mountain sheep and deer. The former are supposed to be increasing rapidly, about 160 frequenting the locality, and which are multiplying rapidly—the Montana bison sheep or common bison. Mr. Heywood, of Vancouver, has gone hunting from abroad, reported sighting 87 sheep and 2 deer in a single day, while he himself secured the limit of his quota, two moose and two deer, all splendid trophies, in the short space of eight days.

It is a well-known fact that thousands of women in all countries of the world use the poison in small quantities to bleach their skin. It is an effective means of whitening the complexion, but the poisons used, by the use of arsenic, said D. V. Duwall, a chemist of Manchester, England.

It is a well-known fact that thousands of women in all countries of the world use the poison in small quantities to bleach their skin. These women are sacrificing their health to the desire to make themselves as fair as possible. What is true about Dr. Williams' Pink Pills. The Baptist Church, Que., Baptist pastor of the village of Lillooet, has told us, is an accumulative poison. When one takes it either by prescription for the upbringing of an appetite or for the cure of rheumatism, does not feel any ill-effects for several years. The effect of the drug is bracing and makes a person feel like eating. It also has the singular effect of averting the poison takes it in such small quantities that it does not realize how much of it will accumulate in the system over a period of years.

"Being an accumulative poison, often takes that length of time to see the results of the drug. Then the user cannot help himself, he must take it again to keep his bowels regular.

I also find the disappearance of the arsenic from the system takes it in such small quantities that it does not realize how much of it will accumulate in the system over a period of years.

"Five years ago in Manchester there was an epidemic of paralysis. Several thousand persons were stricken. Thousands died, and the poison of arsenic of England made a thorough investigation of the malady and traced it to the drug. The investigators discovered that the arsenic was used in the process of brewing of beer, and that the arsenic was contained in a few barrels of beer which had impeded their blood and left a great percentage of them helpless."

Miss Fraser, the Tailor's Friend.

Just as Miss Agnes Weston has conducted herself the sailor's friend so Miss Fraser, the tailor's friend, for fifty years, died, devoted herself to the welfare of the entire valley of the north fork of the Fraser river, and the valley between the north and south fork of the Fraser river, with an approximate area of from 60 to 70 miles and breadth of between 30 and 40. This is a great mountain country, containing numerous lakes, some of them being over a mile in diameter, and many mountain goats.

The East Kootenay (Rocky Mountain) Tailor's Friend is a regulation game preserve of approximately 2,000 square miles area. The game herein has been well protected during the past two seasons by preserving close seasons, and the wanton range now ranges the foothills in lordly bands. They are larger and more animal than the mountain lions and bears, and are now becoming so numerous that by next season it is hoped that protection may be for a short period withdrawn and the hunter given a chance to secure some exceptional trophies.

The difficulty in acceding to the several requests that have been made for an earlier close season for the deer is that the spotters are not available to do the work.

"Kootenay with its forests of a million acres of game, and there are no predatory wolves to work destruction among the deer herds, as on Vancouver island, the result being that Kootenay wapiti are greatly increased in numbers during the past few years.

"Your Humble Servant."

Arthur Tedrope is at one time a surveyor or inspector of taxes, and Mr. Worsfold's friend was one of a deputation who waited on him. After a very heated discussion, Mr. Tedrope said: "I want you to understand one thing. When I write to you that I am your humble and obedient servant, I am doing well nothing of the sort."—London Telegraph.

THE WONDERS OF ARSENIC.

Accumulative Poison Used to Beautify the Complexion.

You no doubt have observed the lily white complexion of some women. These women are sacrificing their health to the use of arsenic, said D. V. Duwall, a chemist of Manchester, England.

It is a well-known fact that thousands of women in all countries of the world use the poison in small quantities to bleach their skin. These women are sacrificing their health to the desire to make themselves as fair as possible. What is true about Dr. Williams' Pink Pills.

The Dr. Williams' Medicine Co., Brockville, Ont.

Gentlemen.—It has been my intention to write to you for some time, but being busy I have neglected to do so.

I am a Baptist minister, was ordained June 14th, 1887, in Crambe Baptist Church, Northumberland County, and am still serving you to the best of my knowledge.

I am a Baptist minister, was ordained June 14th, 1887, in Crambe Baptist Church, Northumberland County, and am still serving you to the best of my knowledge.

Well to Know

A reasonable, intelligent man with a fair amount of energy can make his way in the world.—Archdeacon Westcott.

Wise mothers who know the virtues of Mother Hubbard's Extract will always have it at hand, because it proves its value.

"Don't you think my hat becomes me?"

"I hadn't thought of it in that way. I was thinking that you become like a hat."

**ANIMAL HEROES.**

Ernest Thompson Seton, the famous Canadian author, naturalist, and lecturer, spoke in Winnipeg recently on "Animal Minds and Heroes."

Defining a hero as one endowed with unusual gifts, and striking a balance between animal instinct and theories, one of which claims that an animal's mind is but a bundle of inherited instincts, and its opposite, which holds that every animal has an inherited instinct coupled with reason.

Mr. Seton said that his purpose in portraying wonderful individuals was not so much to what height an animal could rise and to what height of the same species.

"Animals," said the speaker, "differ from man in kind but not degree, and I feel that I have had no trace of common sense."

Having suffered for twenty-five years I had naturally come to what might be called a modern miracle."

Then came Zam-Buk. He tried it,

just as he had tried hundreds of remedies before. But he soon found out that it did not differ in any way.

Within a few weeks there were distinct signs of benefit, and a little perseverance with this great herbal balm resulted in the complete cure.

It was no temporary cure. It was permanent. He was cured nearly thirty years ago, and still lives.

Mr. Seton said: "The cure which Zam-Buk worked has been absolutely permanent. To him it had been a blessing."

It had been a blessing to Ernest.

He had no trace of common sense,

and I feel sure it will never return.

Having suffered for twenty-five years I had naturally come to what might be called a modern miracle."

If you suffer from any skin trouble, cut out this article, write across the back of a small envelope and mail it with one cent stamp to return postage, to Zam-Buk Co., Toronto.

We will forward you by return of mail a sample of the cure, and if you are satisfied with it, order a box or three for \$1.25. Refuse harmful substitutes.

"Your uncle is fabulously rich, isn't he?"

"Yes, his riches are all fabulous."

Minard's Liniment Cures Colds, etc.

About the only way you can cultivate some men's acquaintances is by irritation.

When Holloway's Cough Cure is applied to the nose or throat will stop the nose and the coldness away.

Some wise philosopher once remarked that we live in thoughts, not men. This is especially true of women after they pass 30.

Concerning the story of the wolf which was captured in 1888-47, Mr. Seton said before that time the grey wolf had finished its prey the buffalo, had vanished, became a burden to the Indians, and the ranges.

The bounty of \$5 tempted many cowboys, the unscrupulous wolves were easy victims of the provision of traps and snares.

For years, fall and winter the animals were killed.

Mr. Seton himself was one of the band of wolves, and he told of the cutting which caused the numberless ripples in the foothills too early.

Those who had been taught from experience, were taught by their teachers, and learned to keep away from man, poison and traps, and Mr. Seton said that this accounted for the fact that the cattle country was practically exterminated.

It was again gradually filling up, the wolves no longer, however, being a menace.

Some theory of the language of animals among animals, the lecturer gave the three calls whose meaning he had recognized among the wolves, the first being exactly like that of a pack of hounds on the scent, and the savage scuffle cry when the prey has been caught.

Mr. Seton had with him a remarkable series of views, some of animals taken by the flashlight system and some of trees in the west. Most interesting of these was the photo of the tree which by the marks of the claws in the bark told the story of Wab's chase of the black bear.

The author said that the place where the grizzly here took his bath and still another was in the canyon into which Wab wandered and died by the hands of the mountain gaseous.

Mr. Seton remarked that the curious part of this familiar story of Wab was that the very part to which his critics took the most serious objection were the parts for which he had prefaces.

Mr. Seton closed with an appeal for the protection and preservation of these animals.

Mr. Seton had with him a remarkable series of views, some of animals taken by the flashlight system and some of trees in the west. Most interesting of these was the photo of the tree which by the marks of the claws in the bark told the story of Wab's chase of the black bear.

The author said that the place where the grizzly here took his bath and still another was in the canyon into which Wab wandered and died by the hands of the mountain gaseous.

Mr. Seton remarked that the curious part of this familiar story of Wab was that the very part to which his critics took the most serious objection were the parts for which he had prefaces.

Mr. Seton closed with an appeal for the protection and preservation of these animals.

Alberta Mine Managers' Association Just Formed

A meeting of the mine managers of The Pass which was held in the Imperial hotel, Frank, last week resulted in the organization of the Alberta Mine Managers' Association.

The association began its existence with the following duly elected officers:

President—W. P. Williams, manager of the Lille mine of the West Canadian Collieries.

Vice-president—W. A. David-

son, manager of the Coleman mine of the International Coal & Coke Company.

Secretary-treasurer—S. Shone manager of the Frank mine of the Canadian Coal Consolidated Company.

The Alberta Mine Managers' Association is the culmination of several months' work on the part of several of the mine managers in this part of the district and is very much like similar organizations in Canada and the United States at well as in Wales, England, Scotland, and other countries. The association proposes having a membership drawn from all coal mining districts in Alberta and in B. C. in the Crow's Nest Pass as far west as Fernie. It has for its objects the discussion of all matters of interest to mine managers, especially mining laws, mine management, safety devices, labor situations and will endeavor to promote the general welfare of all concerned, the operators, the men, and the managers themselves.

A meeting will be held in the mercantile hotel, Frank, on Saturday, Feb. 25, at 7:30 p.m., when rules and regulations for the guidance of the association will be discussed and other business which will tend to further perfect the organization will be attended to as well as such other business as may properly come before it.

Took Poison

Lillian Knowles, the seventeen-year old daughter of George Knowles, the blacksmith here, took 42 anti-septic tablets on Saturday night and is now in a very critical condition.

Double Murder

Louis Marquise and Jack Erskine were murdered at Taber on Monday night last. The discovery was made on Tuesday morning by a Chinese cook who found the man dead in a house in the restricted area, while the dead body of the woman was found riddled with bullets outside of the house. Who committed this double murder is not yet known but suspicion is turned towards a Jap, H. Ushimura, and strenuous efforts are being made to lay hands on him.

A New Church

The Presbyterians of Blairmore are arranging for the erection of a large church on the hill north of the Alberta hotel. Plans and specifications are being prepared and the architects may have these completed in the course of a week or so. The local pastor, Rev. A. R. Langlois, proposes to have erected a building which will be a credit to the town and one which will have no equal anywhere in the Pass. We hope soon to be able to see complete plans and specifications when we shall have further remarks to make.

Believe only the half you hear—then proceed to forget two-thirds of that.

THE GOVERNMENT WILL BUILD A GOOD ROAD THROUGH THE PASS

A Delegation of Business Men from Blairmore, Coleman and Frank Interview Premier Sifton and Ask for a Better Wagon Road

Through This Part of District—The Premier Understands Our Needs and Promises \$18,000 for That Purpose

For some time past the people from this part of the district had been advocating for a good wagon road, or one that at least would lessen the danger to human lives and would make it possible for persons to move from one town to the other without fearing some disastrous result. The Prairie and Pass Protection League, the Boards of Trade, the town councils, the press and the general public, all helped in loudly and constantly pleading for a much improved highway through The Pass to extend from the British Columbia road at Crows Nest east to Macleod.

Our desires are now about to be realized as the result of a conference held at Macleod, on Tuesday afternoon last, between several people from The Pass and Hon. A. L. Sifton, Premier of Alberta.

Those who journeyed to Macleod and interviewed the Premier were, W. A. Beebe, T. Frayer, J. A. MacDonald and M. Rosse, from Blairmore; Mayor Cameron, and W. L. Ouimet, from Coleman, and H. Murphy, from Frank. After they had fully explained the object of their mission, the Premier very promptly promised aid and assured the delegates that a grant of \$16,000 or \$18,000 would be allowed by the government for that purpose and that a good automobile road would be made through The Pass and that an engineer would be sent over the road shortly and the work of improving the old road would commence as soon as the weather conditions allowed. The road will be along over the old one with the exception of the one through the Frank slide. The road here may be on the north side of the railway which will mean a wider, more level and straighter road with two dangerous railway crossings left out.

ARE UNANIMOUS FOR INCORPORATION

A meeting of the ratepayers of Blairmore was held in the Mercantile hall on Monday evening last. The object of the meeting was to discuss incorporation. R. C. Green was appointed chairman. The meeting was called to order at 9 p.m.

T. Kennedy was the first speaker. He owned one lot in Blairmore and he thought that that lot was taxed too high and said that if all the lots in Blairmore were taxed the same rate that his property was... the revenue which the village would receive from this source would be increased by several thousand dollars. He further stated that incorporation would be a benefit to Blairmore. After holding the floor for twenty-five minutes the speaker took his seat amidst a wild burst of applause that shook the building and made the nails pop from the floor and hop around like a parcel of frogs, that caused the putty to fall from the windows and come down with a thud that startled the silent sleepers in the basement while the shingles tumbled from the roof like an avalanche of mosquitoes on a summer's day.

H. E. Lyon was the second speaker. He thought that Blairmore had reached the time when she should be incorporated into a town. With the completion of the water works, Blairmore would require \$30,000 or \$35,000 before she would be able to take it over, and to obtain that amount of money incorporation must first take place. He did not believe that incorporation would mean an increase in taxes. The speaker said that after making inquiries from several incorporated towns in Alberta regarding the benefits and otherwise accruing from incorporation, he believed that it would be greatly to Blairmore's benefit to be made a town. He again referred to the new water system. It was

something which Blairmore was greatly in need of and she should be incorporated so as to own her water works.

—In referring the matter up to speak. He was in favor of incorporation, but he had already expressed his views on the matter on several other occasions, we preferred to keep his seat and give others in the audience an opportunity to say something.

Louis Thebaud asked the privilege to say something, whereupon those present remained silent, but he, thinking that silence meant consent, squeezed and rubbered, rubbered and squeezed his way through the empty seats until he finally reached the platform a little fatigued amidst an ovation which raised the dust in clouds and which brought forth tears of appreciation from his many bewildered sympathizers. From his continual flow of eloquence (?) his impatient listeners learned that he once owned two lots in Blairmore but that he had sold them the other day at a low price because he needed the "dough." He used the term "concourse" many times as a bull dog would bark if suddenly disturbed in the night by a strange intruder. After reading his glasses and scrutinizing the "concourse" of people the speaker was at last convinced that there were no ladies present. He wanted Blairmore to progress because he hoped thereby to get a good position. Louis spoke both soft and loud. At times his words were finer than the points of canthic needles and the audience could only "hear the shadows" of them, while at other times his words were like bolts from the blue, they sunk clear into the bowels of the earth and thunder galloping after thunder could be heard whenever the speaker paused to put his eye-glasses on straight. Relief came at last, the lights danced, the walls shook, the floor rocked and the Frank slide was turned, while a large "concourse" of people "ski-dooded" after being held spell-bound for twenty-three sorrowful minutes.

After all this eloquence there was no opposition to incorporation, and apparently everybody was strongly in favor of seeing Blairmore erected into a town.

Special Meeting of Blairmore Board of Trade

A special meeting of the Board of Trade was held in the Union bank on Saturday evening last to further discuss incorporation. Amongst those present were R. W. Coulthard, T. B. George, W. A. Beebe, Archie McLeod, Harr Howard, Isaac Loughead, John Smith, T. Frayer, J. A. MacDonald, F. W. Doubt, J. Menard, J. Montalbetti, R. C. Green and H. E. Lyon.

Communications were received from the city of Fernie, the towns of Macleod and Gramham bearing upon the subject of incorporation. Although several other enquiries had been made by the secretary there were only three answered. While these communications did not contain very much information, they considered that incorporation was doing considerable good to their towns. Some of the members of the Board thought it advisable to let incorporation drop for a time, while others were in favor of going ahead and making Blairmore a town. The members were reminded of the public meeting advised for on Monday night when incorporation would be further considered.

T. Frayer informed the Board that Premier Sifton would be in Macleod on Monday when an opportunity would be offered to some of the members to interview the Premier regarding better roads along The Pass. The speaker was appointed along with W. A. Beebe and others to make this journey and press upon the leader of the government the necessity of improving the public highway along this part of the province.

Mr. E. Dempsey Dead

Ephraim Dempsey, formerly general manager and principal owner of the Maple Leaf Coal Company, Maple Leaf, died at his home at Spokane, Wash., on Saturday morning last. He was taken with paralysis about five months ago while attending to his business at Maple Leaf and no hope had been held out for his recovery since.
